Dr S Vijay Anand
- Time : 9.30 am to 9.50 am
- 3** **The DIC in pregnancy - AFLP Vs other mimics – management of consumptive coagulopathy**
Dr P Saravanakumar

10.00 am to 11.00 am - Inauguration

- Time : 11.15 am to 12.00 pm
- 4** **Obstetric Sepsis: The Masked Crisis – Panel discussion**

Moderator : Dr MN Sivakumar

Panelist

Dr V Dhavashree
Dr Kavitha Nagarajan
Dr S Ramakrishnan

Dr M Sathya Prakash
Dr DV Suresh
Dr P Vivekanandhan

- Time : 12.00 pm to 12.30 pm
- 5** **Anticoagulation in the Critically ill Parturient**
Dr T Gopinathan

- Time : 12.40 pm to 1.00 pm
- 6** **Eclampsia vs Everything Else**
Dr P Vivekanandhan

1.00 pm to 2.00 pm - Lunch

- Time : 2.00 pm to 2.20 pm
- 7** **Ventilating the "Double Occupancy" Lungs**
Dr AK Ajith Kumar

- Time : 2.30 pm to 2.50 pm
- 8** **Brain Death in the Pregnant Patient**
Dr Vignesh

- Time : 3.00 pm to 3.20 pm
- 9** **ECMO in Pregnancy: Life Support or Bridge to Delivery?**
Dr Ramesh Varadharajan

- Time : 3.30 pm to 3.50 pm
- 10** **OHSS - Why this is a "Grey Area" Topic**
The Hemodynamic Conflict/To Drain or Not to Drain?
Dr K Subramani

Dear Distinguished Delegates,

On behalf of the organizing committee, it gives me immense pleasure to welcome you to our 5th Annual SKS Intensive Care Programme (SIP - 26). This year, we are proud to announce that our central theme is Obstetric Critical Care.

We are incredibly proud of how our critical care medicine team has evolved over the years into a well-organized department. Our unwavering dedication, extensive training, and collaborative approach have empowered us to handle even the most complex and critically ill cases with confidence and expertise.

A robust academic program is at the core of our department. We are actively involved in running academic courses for both doctors and nurses, ensuring that our healthcare professionals are equipped with the latest knowledge and skills in critical care medicine. This commitment to continuous learning ensures the highest standards of care for our patients.

Our department is fully equipped with state of the art technology including ECMO, enabling us to provide advanced life-support interventions and comprehensive monitoring for critically ill patients. We are fortunate to be well-supported by our well-organized Emergency Room and an efficient Anesthesia team, fostering seamless coordination and optimal patient outcomes.

By focusing specifically on the dynamic field of Obstetric Critical Care, we have curated a program for SIP - 26 that blends innovative learning formats with in-depth knowledge sharing:

- * **Day 1** will feature immersive simulation scenarios from obstetric emergencies. These interactive sessions are designed to challenge your clinical judgment, rapid response skills, and teamwork in a controlled yet realistic environment.
- * **Day 2** will be dedicated to a series of comprehensive lectures and workshops. We have invited eminent experts to share their insights and practical expertise on managing acute maternal complications, ensuring you gain valuable tools to apply directly to your clinical practice.

Dr Suresh Viswanathan
Managing Director, SKSH & PGMI, Salem.

Dr S Nishanth
Organising Secretary

We are confident that SIP - 26 will provide an enriching platform for learning, networking, and professional growth. We encourage you to actively participate in all sessions and contribute to the vibrant discussions.

We look forward to welcoming you to this exciting event.

Faculties

Dr AK Ajith Kumar

DEPARTMENT OF CRITICAL CARE MEDICINE

Antimicrobial resistance is one of the biggest challenges we face daily.

Let us use antibiotics wisely for a better future.
