1st June 2025

Time
9.00am onwards

Venue
Radisson Hotel,
Salem.

Registration opens shortly....

*CME Credit hours applied

Dear friends and colleagues

It gives me great pleasure to welcome you all to SIP – 25, the 4th Annual Critical Care CME, organised by the Department of Critical Care Medicine. This year, our theme is Respiratory Critical Care, reflecting the vital role it plays in today's intensive care practice.

We've planned a comprehensive two-day program. Day 1 features insightful lectures by renowned speakers who will share their expertise on current challenges and advancements in respiratory critical care.

Day 2 is dedicated to hands-on learning, starting with four interactive workshops in the morning. Post-lunch, we dive into "Code Breath"—a high-energy simulation session with at least 10 case-based scenarios, where delegates will work in teams on stage, reflecting the real-world essence of critical care teamwork.

We hope SIP – 25 equips you with both practical tools and updated knowledge to enhance the care of patients with respiratory illness.

Warm regards,
Dr S Nishanth,
Organising Secretary
